Education

MS [2014] – Information Technology,

Universidade de Aveiro, Portugal

**BTech [2006] – IIT Kharagpur, Electrical,
Electronics & Communications Engineering**

Teaching Motivation

After a long and successful corporate career in technology, my focus is now on helping students in Silchar gain practical computer skills and develop an entrepreneurial mindset. I aim to mentor young learners so they can confidently build technology-driven careers and businesses in the digital economy.

Profile

Retired corporate technology leader with **18+ years of experience** in software engineering, technology leadership, and entrepreneurship. Former Chief Technology Officer with strong expertise in programming, e-commerce platforms, and modern web technologies. **Financially secure** with a stable pension plan and now motivated to contribute to society by teaching computer skills to the next generation in India. Passionate about helping students build practical digital skills and develop an **entrepreneurial mindset** so they can create opportunities rather than only seek jobs.
